

Current Season Gardening Tips

Vegetables that Grow in Fall:

- Lettuce
- Cabbage
- Kale
- Parsley
- Arugula
- Spinach
- Broccoli
- Brussel sprouts
- Leeks
- Turnips
- Beets
- Radishes
- Peas

Preparing Your Garden for Winter/Spring:

- Plant garlic for harvest next year – make sure to plant before the ground freezes!
- Pull out tender vegetables, such as tomatoes and zucchini, but leave the hardy vegetables, such as broccoli and spinach, in the ground – they can handle colder weather just fine!
- Cover the garden beds. Here are several options:
 - Add compost to the garden and cover with straw
 - Sow cover crops
 - Cover with black plastic or cardboard
- Prune berry bushes
- Turn off the watering hose!

Here are a few sites that sell seeds:
